Projects

PERSONAL WEBSITE | HTML, CSS, JAVASCRIPT, GITHUB

<https://github.com/kevinphoui/kevinphoui.github.io>

- Using **HTML, CSS & JavaScript**, created my own personal website that I use as a portfolio. Hosted and updated online via **GitHub**. Made over the course of 4 months. Viewable at <https://kevinphoui.github.io/>

TWITTER WEATHER BOT | NODE.JS, TWITTER API, OPENWEATHER API, GIT/GITHUB, HEROKU

<https://github.com/kevinphoui/madisonweatherbot>

- A Twitter bot that automatically Tweets the weather for Madison, WI once a day. Hosted online via **Heroku**, collects weather data from the **OpenWeather API** and uses the **Twitter API** to Tweet. Has accumulated a total of 591 Tweet impressions and 1,300 profile visits on Twitter in 7 days.

DISCORD CHATBOT | NODE.JS, DISCORD API, GITHUB, HEROKU

<https://github.com/kevinphoui/discordbot>

- A chatbot that performs actions when given a command. Hosted online via **Heroku**, updated via **GitHub**. Works with the **Discord API** in **JavaScript**. Used in multiple servers with a total of 176 active users.
-

Certification

SOFTWARE ENGINEERING VIRTUAL EXPERIENCE AT JPMORGAN CHASE & CO 2022

- Participated in the open access JPMorgan Virtual Experience Program with Forage.
- Tasks Completed include:
 - Using **Python**, processed the data feed of stock A and stock B's price to help analyze when trading for the stock should occur.
 - Used JPMorgan Chase frameworks, tools, and **Git** to set up a work environment. Using **React** and **Typescript**, fixed a client-side web application to display a graph that automatically updates with data from a server application.
 - Used JPMorgan's Perspective tool to help monitor and determine when a trading opportunity may arise with **React** and **Typescript**.
